SEQ ID NO 55
LENGTH: 20
TYPE: DNA
                          Sequence 11, Application US/09735450
Patent No. 6767542
GENERAL INFORMATION:
APPLICANT: Paterson, Yvonne
APPLICANT: Gunn III, George R
APPLICANT: Peters, Christian
TITLE OF INVENTION: Compositions and Methods
TITLE DEPERTMENT OF ANTIGENS
FILE EXPERENCE: DENNI-0741
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                NUMBER OF SEQ ID NOS: 123
